

## GRIPTEX ADDITIONS

### Technical Data Sheet

GripX surface technology reaches the same slip resistant standards used by most commercial safety floorings.

Hygienic and easy to clean PU surface coating that helps prevent the spread of dirt and bacteria.

Waterproof barrier water from above and below. Ideal for rooms where liquid maybe split.

Glass fibre interlayer adds dimensional stability for a better looking floor.

Patented polyester backing bridges subfloor irregularities for a better finish.

Can be laid directly over most existing subfloors, reducing installation time and cost.

- Ready-to-install flooring, multi-use and comfortable
  - Slip-resistant finish
  - Backing: GFT Technology, Gerflor Fibre Technology
  - Up to 35m<sup>2</sup> can be installed without adhesive over existing flooring: see the technical characteristics
  - For all rooms in the home
  - Made in France
- 
- Total thickness: 2.9 mm
  - Thickness of wearlayer: 0.3 mm
  - Weight: 2000 gr/m<sup>2</sup>
  - Acoustic insulation: 16 dB
  - Guarantee : 15 years
